

THE HEAT IS ON.....

In this weather be sure to drink plenty of water and use the sun screen. This isn't only for us but also for our 4 legged companions. I recently listened to an article sent by Stacy Westfall about letting a hot horse drink water. It stated that they are just as much an athlete as we are and we drink water when we are hot. Not a lot at one time but sparingly several times. This helps to rehydrate the system, without over loading. It was also noted that by not letting a hot horse drink water you run the risk of them not drinking when they cool down and then dehydration becomes more of a problem, and could also lead to more severe problems later. How do you check for dehydration? Take a pinch of skin on the neck. If stays pinched, then you need to give water. We do the same with a pinch of skin on the back of our hands. Yes use the sun screen. Even though we wear hats we still get sun burnt. And all those pretty white faces on our 4 legged companions get sun burnt also, so protect those faces.

ROYALTY

Yes we have some royalty amongst us.
Heather Oats Equine Queen Marion
Haden Townsend Equine King Marion
Ariana Kingsbery Horse Queen Allen
Morgan Howsher Horse Queen Harden

Our Deepest Sympathy goes to the Jane Watts Family. Some of us may not know the name but we all have heard her voice at the Marion Shows. Comradury will be missed by all. During the Marion Offer and Trustee Show there will be a dedication ceremony during the break.

Get well to Laura Gossard who suffers from a broken leg. Hope to see you at the shows soon.

Get well to Larry Pingry from Celina.

We still need sponsors for the Fall Round Up. If you have any suggestions on awards for the Banquet let Sarah Oates know 740-751-7978 or oatesdream@aol.com
